

Bright, polished surfaces. Gleaming windows and sparkling floors. It might sound obvious, but here at Envirotec we believe the environment you work in says as much about you as the clothes you put on each day. So we've made it our business to make the work place a clean, shiny and inviting place to be.

With more than 30 years experience behind us, we know exactly what it takes to get a building ready for work. And although we use the best cleaning equipment available, it's our people, not our hoovers, that make us stand out. In fact, people are at the heart of our key principles, which are behind everything we do.

# Who we are

Firstly, we look after our clients, working closely with them to make sure we give them exactly what they want, when they want it. The fact that our clients rely on us to do a brilliant job is what gets us out of bed in the morning.

Then of course, we look after our staff, employing the best people we can find and giving them the training, skills and rewards they need to do their jobs properly, efficiently and cheerfully.

And whatever we're doing, whether in our own offices or on-site, we take pride in our work, concentrating on the job in hand and doing the very best that we can. So whatever you need, you can trust us to take of it.

Dirt is dirt, and it needs to be removed; but how and how often is up to you. We'll sit down with you and draw up a cleaning programme that suits your organisation, and we'll make sure we stick to it. But we'll also be happy to adapt it if your needs change at any time.

#### Everyday Cleaning

It's impossible to concentrate in messy surroundings, so we'll start by making your work environment fit for business. And we don't just do the bits you can see. Under the desks, along the tops of pictures, right into the corners; we'll make sure there's nowhere for the dust and fluff to hide.

# What we do

We'll also polish your windows inside and out until they sparkle, however high up they are. Weekly, monthly or as often as you like, we'll get rid of dirt and dust without leaving smudges or smears, so the only thing you'll see is a clear view.

#### Specialist Cleaning

From time to time, some parts of your building might need more specialist cleaning, and we can sort that too.

So if your kitchens or toilets need a deep clean for hygiene reasons, we can get it done, and done properly. Or if part of your premises has taken a bit of a hammering, we can give it an extra one-off clean to bring it back to life. We can also create a maintenance programme to keep your carpets and tiles looking good as new.

Of course, regular cleaning is only one part of keeping your workplace in order. We can also help you deal with the other bits and pieces that make it feel like a great place to work.

#### **Waste Management**

Whether it's rubbish or recycling, we can take away whatever you don't need, quickly, safely and securely.

#### **Hygiene Services**

Sanitary bins, air fresheners, dust mats, they may not sound exciting, but you would soon notice if they weren't there. We can supply, maintain and clean any extra hygiene equipment you need to keep your building as it should be.

# What else we do

#### **Graffiti Removal and jet washing**

Nothing makes us crosser than graffiti; it goes against everything we stand for. So if your building gets scribbled on, we'd be happy to scrub it off for you. And if you need a jet washer for any other reason, we can sort that out too.

#### **Estate Management**

Whatever outside space you've got, we'll work with you to make sure the first impression you give is a good one. We can look after your car parks and walkways, maintain your grounds or even give the whole area a revamp with our landscape gardening service.

It goes without saying that we'll do our best to protect the planet, keeping our waste down.

# Who we do it for

We're very proud of the relationships we have with our clients, many of whom have been with us for years. We don't have room to list them all, but the names above should give you an idea of the kind of people we're working with right now. We'd be delighted if you would join them.

We're also proud to be members of, or associated with, these trade organisations.

Having initially been commissioned to look after our Centre in Victoria, Envirotec's responsive, value for money business model has been such a success that we have rolled it out across all our Business Centres in central London.

# Testimonials

I have used Envirotec for many years to provide cleaning and ancillary services in all the properties I have looked after, both as managed facilities and serviced buildings. Their work is always of a very high standard and they are quick to deal with any requirements that I may have.

Brian Clarke  
Facilities Manager

John D Wood  
St. James Square, London

It's really important to be able to speak to somebody who can deal with any issues that arise, and the team at Envirotec are always on hand to help, at any time of the day or night.
